

The Devil Who Couldn't Fly

story/ ChocoDevil
art/ Benan

The floss is simply a "clock".

Tic
Toc.

A plant that responds sensitively to the passing of time.

It looks like you've stunted its growth multiple times already.

You can't keep forcing it to stop growing.

Just like humans, there's nothing we can do about the passing of time.

Well, I'm sure you're at its limits already.

If you mess with the floss one more time...

You'll die.
